

INVITATION

Dear Customer,

I am delighted to invite you to our Feed Forums taking place 16th and 21st January 2020. We received extremely positive feedback from our technical meetings held in November 2018, when we were preparing for a potential forage shortage. Thankfully, this year forage stocks are in good supply.

The focus of our Feed Forums in 2020, will be to provide advice and knowledge gathered from dealing with everyday issues at farm level by our experienced Ruminant Support Team, and practical solutions to help improve efficiency and ultimately profitability on your farm.

Refreshments will be served after each meeting, along with the opportunity to meet with the Brett's Ruminant Support Team.

Looking forward to welcoming you to our Feed Forums in January.

Regards,
Heather Peppard
Nutritionist

Unlocking the potential of your farm

Thurs 16th Jan Abbeyleix Manor Hotel

Tues 21st Jan Hotel Minella, Clonmel

Time: 7:30pm

TOPICS:

- Dry Cow Management - ensuring a stress-free calving period and successful start to lactation.
- Early Lactation - nutrition in the first six weeks of lactation dictates fertility and total lactation performance.
