

BRETTS GRASS SEED MIXTURES 2023

BRETTS GRASS SEED VARIETIES

TETRAPLOID VARIETIES

Abergain: This popular variety is well-known for its unbeatable quality, palatability, consistent yield and ground cover. A long-standing top performer on the PPI list.

Ballintoy: A persistent variety with a well-balanced growth pattern across all seasons. This variety has good digestibility, excellent silage and annual yield and is an exceptional all-rounder.

Gracehill: Joint highest PPI value (with Abergain) in the late tetraploids, excellent growth throughout all seasons resulting in increased grass production.

DIPLOID VARIETIES

Aberchoice: This is a persistent variety with good ground cover. A top performing late diploid on the PPI list with excellent quality, total yield and digestibility.

Ballyvoy: An excellent complement to Aberchoice, with good spring yield. This variety is high yielding throughout the season and is strong on quality and digestibility for improved animal performance.

Gold Sward Extend

Gold Sward Extend is formulated to meet the needs of an intensive grassland farmer. This mixture has an equal inclusion of tetraploids and diploids and will form a high quality, dense sward with excellent spring and autumn growth. The sward has exceptional palatability which leads to improved animal intake and performance. The mixture is based on the highest performing varieties on the PPI list.

Gold Sward

Designed as an intensive cut and graze mixture with good grass growth throughout the season. This mixture creates a persistent and dense sward suitable for set stocking or rotational grazing and will deliver high yielding, excellent quality silage.

No Clover Option

If a mixture is required with no additional clover our Gold Sward Extend is available with no clover inclusion.

Clover Pack

We have a specific coated white clover pack available which can be over-sown in newly established swards or permanent pasture. This 5 kg pack will cover 1 ha and includes varieties that are well suited for grazing swards.

GOLD SWARD EXTEND			
Inclusion Rate	Variety	Type	Heading Date
3.5 kg	AberGain	Late Tetraploid	4th June
2.0 kg	GraceHill	Late Tetraploid	4th June
3.5 kg	AberChoice	Late Diploid	11th June
2.0 kg	Ballyvoy	Late Diploid	3rd June
1.0 kg	Coated White Clover	Medium Leaf	
12.0 kg			

Gold Sward Extend (No Clover)			
Inclusion Rate	Variety	Type	Heading Date
4.0 kg	AberGain	Late Tetraploid	4th June
2.0 kg	GraceHill	Late Tetraploid	4th June
4.0 kg	AberChoice	Late Diploid	11th June
2.0 kg	Ballyvoy	Late Diploid	3rd June
12.0 kg			

Gold Sward			
Inclusion Rate	Variety	Type	Heading Date
2.5 kg	Gracehill	Late Tetraploid	4th June
2.0 kg	Ballintoy	Late Tetraploid	4th June
3.5 kg	AberChoice	Late Diploid	11th June
3.0 kg	Ballyvoy	Late Diploid	3rd June
1.0 kg	Coated White Clover	Medium Leaf	
12.0 kg
